regulation of economic and financial obligations.

PROCESSING METHODS

Personal data are processed, even with automated and electronic tools, for the time strictly necessary to achieve the purposes for which they were collected, with the adoption of security measures to prevent the loss of data, illicit or incorrect use and accesses unauthorized. Personal data provided by users who use the services provided by the Company, retain communication channels with this are used for the sole purpose of performing the service or provision requested, may be disclosed to third parties in charge in the event that this is necessary in the context the purposes of the processing or for the regular execution of the activity of the AutonoleggioLimousine Service SNC. In no case will the data be disclosed to third parties for commercial purposes (sending newsletters, commercial offers, etc.) or profiling; the data collected while browsing the website may be acquired by technical, analytical or third-party cookies, necessary for the proper functioning of the website.

TYPES OF DATA PROCESSED

NAVIGATION DATA: The computer systems and software procedures used to operate the website www.limousineservice-sml.it acquire, during their normal operation, some personal data whose transmission is implicit in the use of Internet communication protocols. This is information that is not collected to be associated with identified interested parties, but which by their very nature could, through processing and association with data held by third parties, allow users to be identified. This category of data includes IP addresses or domain names of the computers used by users connecting to the site, the addresses in the Uniform Resource Identifier (URI) notation of the requested resources, the time of the request, the method used to submit the request to the server, the size of the file obtained in response, the numerical code indicating the status of the response given by the server (success, error, etc.) and other parameters relating to the operating system and the user's computer environment. These data are used for the sole purpose of obtaining anonymous statistical information on the use of the site and to check its correct functioning. The data could be used by the competent authorities to ascertain responsibility in case of hypothetical computer crimes against the site. The site is not structured to receive other personal data beyond those collected by cookies.

COOKIES: The use of technical cookies, that is cookies necessary for the transmission of communications on an electronic communication network cookies strictly necessary to the supplier to provide the service requested by the customer, allows safe and efficient use of our site. Session cookies may be installed in order to allow access and stay in the reserved area of the portal as an authenticated user.

Technical cookies are essential for the correct functioning of our website and are used to allow the users normal browsing and the ability to take advantage of the advanced services available on our website. The technical cookies used are distinguished in session cookies, which are stored
